

London June 13 1895

My dear Monsieur Hayashi

I have great pleasure in sending you a cheque for my last purchase from you – 9000 frs which I hope you will receive rapidly. I hardly know when I shall have the pleasure of seeing you again. I am afraid the weather is too hot for me in Paris but should you have a nice lot that you think would be worth coming to see will you please write let me know although I suppose you will soon be going into the country for a holiday.

Business is very quiet in London just now I hope you find it better in Paris ? Will you kindly send me 2 of the small books that you sent me before- I think they were called “Ancien Japon” but I hope you will let me pay for them as I do not like you to send them without paying.

Hoping that you are quite well as also your brothers

I am Mon cher ami

Your faithfully

W. D. Cutter
